

Placement for Coaching Scale

Credit for coaching provided as follows (no maximum on years of experience – only contractual experience counted):

Exact Experience – One level provided for each full year of experience in same sport – (high school or above or coaching with a professional certification) – partial seasons will not be counted – if sport is a middle school sport, middle school experience counts one for one

Similar Experience – One level provided for each two complete years of middle school coaching in same sport – partial seasons will not be counted, no little league experience will be counted

Professional Playing – One level provided for each two complete years of professional playing experience in same sport

Credit for teaching experience is based on the current approved teacher salary scale.

Procedure:

1. Obtain a coaching experience number by using the criteria above.
2. The teaching experience number will be based on actual contractual experience as determined by the Director of Personnel, including the maximum cap for hiring.
3. Add the coaching experience number and the teaching experience number.
4. Divide by 2 (round down).
5. The result is the step from the teacher's scale on which the coaching/extracurricular supplement is based (maximum step is 20).
