

POLICY ADOPTION

The School Board adopts policies for governing the school division. The power to enact policy cannot be delegated to an employee or agent such as the superintendent or a single member of the School Board.

Policy is a basic statement related to the conduct of the school division's business. Policies are subject to revision by the School Board.

Regulation is the manner or method of implementation of policy by the superintendent and staff. Regulations are subject to revision by the superintendent.

Policies may be developed and presented to the Board by the superintendent or superintendent's designee with community input as appropriate. The final authority for adoption rests solely with the School Board.

When a proposed action of the School Board, initiated either by Board member or administration, affects existing School Board policies, the existing policy and regulation, if any, shall be referenced so that the effect of the new action will be clear.

Unless otherwise specified in the policy, a new or revised policy becomes effective upon adoption.

All regulations are developed by or through the superintendent. They are presented to the School Board as information items, unless the School Board informs the superintendent that it wants to act on a specified regulation.

Adopted: by the Bristol Virginia School Board on May 09, 2022.
